Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 14 September 2007.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Information Disclosure Statement

2. Receipt is acknowledged of the Information Disclosure Statement (IDS) received March 22, 2007.

Election/Restrictions

3. Claims 2-7 and 12-13 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected species, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on September 14, 2007.
4. Applicant's election with traverse of Species II and Sub-species VII in the reply filed on September 14, 2007 is acknowledged. The traversal is on the ground(s) that "the generic claims are not so broad as to place an undue burden on the Patent Office to search and examine the full scope of the claims". This is not found persuasive because the species are independent and distinct.

The requirement is still deemed proper and is therefore made FINAL.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 14 and 15 are rejected under 35 U.S.C. 102(b) as being anticipated by Ishii et al (JP 2002-008209). As per claim 14, Ishii et al shows in figures 1 and 14 a perpendicular magnetic recording head. Figure 1 of Ishii et al also shows a yoke layer 13b disposed so as to be recessed from a recording-medium-facing surface facing a recording medium moving in a predetermined direction of medium movement. Figure 1 also shows a pole layer 13a disposed on a medium-outgoing side of the yoke layer 13b in the direction of medium movement so as to be exposed to the recording-medium-facing surface.

The pole layer 13a includes a pole uniform width portion having a uniform width determining a recording track width of the recording medium and a pole widening portion having a larger width than the width of the pole uniform width portion. The pole uniform width portion is closer to the recording-medium-facing surface relative to the pole widening portion.

The yoke layer 13b includes a connecting portion having a uniform width larger than the width of the pole uniform width portion and smaller than the width of the pole widening portion. Yoke layer 13b also includes a yoke widening portion having a width larger than the width of the connecting portion where the connecting portion is closer to the recording-medium-facing surface relative to the yoke widening portion. Figure 1 additionally shows a portion of the pole

widening portion in the pole layer 13a being connected to at least a portion of the connecting portion of the yoke layer.

As per claim 15, figure 1 shows a recess disposed in a portion of the yoke layer away from where the yoke layer is connected to the pole layer.

Response to Arguments

7. Applicant's arguments with respect to claims 14 and 15 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
